Further content will also be included and delivered progressively using feedback from the learners, and their developing understanding. This will include specific assignments drawn from, and adding benefit to their organisation and further one- to -one learning content informed by any knowledge gaps or weaknesses in knowledge of any individuals in the cohort.

Format of Delivery

The support will be specifically tailored to the business and/or group needs and contain elements of one to one support to respond to individual's skills gaps.

The training content will be bespoke and specific to this organisation's requirements.

An integral part of the training and skills development will be one of 'experiential learning' by virtue of real, in the business project based activity.

Duration of Delivery

Delivery time and number of participants will be bespoke to employer need with specific dates and phasing by agreement with the company and BCD.

An initial meeting will take place to discuss requirements where duration and selected modules will be decided to form the training programme schedule.

Business Benefits

For businesses to achieve business growth, for many it is no longer adequate for them to rely on domestic market growth potential. However to take those early steps into exploiting export potential, barriers, methodology and processes may appear daunting.

This training will give the delegates new skills and understanding whereby exporting will be explained step by step, compliance and regulatory issues will be demystified, helping to become 'export ready'.

The training will increase knowledge, skills and capability of individuals in relation to the core capabilities that their respective roles require to help drive growth and change in the business.
