Course Overview:

Material
Requirements
Planning

brookconsult.co.uk

Content:

The content will introduce learners to what MRP really means and then develop an understanding of the components of an MRP system and how implementation will add competitive advantage to a business by ensuring orders, stock levels and scheduling can be effectively controlled giving competitive advantage and control of stock levels hence working capital.

Content includes:

- **MRP Inputs**
 - Bill of Materials
 - Master Production Schedule
 - Inventory records
- **MRP Processing**
 - Gross requirements for materials
 - Net Requirements for materials
 - Planned Order Schedules
- **MRP Reporting**
 - Performance control Reports
 - Stock analysis
 - Future Inventory Requirements
 - Exception reporting
- **Benefits and drawbacks of MRP**
 - Importance of accurate inputs
 - Gaining staff 'buy in' and training
 - Improving 'on time delivery'
 - Reduction of stocks and working capital
- **MRP 2**
 - Understanding Manufacturing Resources Planning
 - Relationship between MRP and MRP2

Further content will also be included and delivered progressively using feedback from the learners, and their developing understanding. This will include specific assignments drawn from, and adding benefit to their organisation and further one to one learning content, informed by any knowledge gaps or weaknesses in knowledge of any individuals in the cohort.

Format of Delivery

The support will be specifically tailored to the business and/or group needs and contain elements of one to one support to respond to individual's skills gaps.

The training content will be bespoke and specific to this organisation's requirements.

An integral part of the training and skills development will be one of 'experiential learning' by virtue of real, in the business project based activity.

Duration of Delivery

Delivery time and number of participants will be bespoke to employer need with specific dates and phasing by agreement with the company and BCD.

An initial meeting will take place to discuss requirements where duration and selected modules will be decided to form the training programme schedule.

Business Benefits

This Training programme will provide staff with the skills and competencies to address these challenges by implementing and managing a MRP system, giving competitive advantage, maximising production capability and effectiveness and reducing working capital requirements.

Delegates will develop skills on control of production scheduling to achieve 'on time' customer service and product delivery.

The training will increase knowledge, skills and capability of individuals in relation to the core capabilities that their respective roles require to help drive growth and change in the business.
