## **Format of Delivery**

We start by getting to know your organisation via deep-dive sessions into your business and to fully understand the reason for the required Health & Safety support.

Consultancy sessions can be in the form of facilitated team meetings, one to one coaching sessions or workshops to understand current H&S culture and the required changes.

Ideas will be discussed, challenged and tested to establish a robust implementation/action plan.

Brook Consultants work heavily to embed themselves into your operation as it is vital we understand the end goal to ensure our consultancy is tailored towards achieving this in the most stress-free way possible.

The delivery will be bespoke to business needs and sessions will be dictated by participant availability, recognising their commitments to the ongoing management of the business.

Delivery will be on business premises or digitally via any online meeting platform such as teams or Zoom.

## **Business Benefits**

Working with Brook to outsource or audit your H&S function will see large scale benefits to ensure your business is doing things the correct way without any risk of repercussion in the future. Brook will help manage your H&S problem in the most effective way possible, recommending the required changes. Brook offer a fresh perspective look at your current situation with no clouded judgement and have the ability to "hit the ground running" due to their experience dealing with similar issues within our client base. There is no one size fits all with Brook and we can offer a flexible, customised service.
